

LETSYSTEMS TRAINING PACK

*Though you have shelters and institutions
Precarious lodgings while the rent is paid,
Subsidiary basements where the rat breeds
Or sanitary dwellings with numbered doors
Or a house a little better than your neighbour's;
When the stranger says: "What is the meaning of this city?
Do you huddle close together because you love each other?"
What will you answer? "We all dwell together
to make money from each other"? or "This is a community"?*
